Product Manager across e-commerce purchase journeys, travel refunds, and AI-assisted product operations. Delivered revenue and automation outcomes through product development, API integrations, and workflow redesign. ITB Industrial Engineering graduate with prior experience at BCG.

PROFESSIONAL EXPERIENCE

Senior Product Owner – MAPCLUB

July 2026 - Present

- Own the pre-purchase journey across homepage, campaigns, cart, and checkout; define coupon and address-entry improvements through requirements and testable prototypes.
- Built an AI-assisted workspace for requirements documents, process diagrams, and prototypes, reducing BRD preparation from **about one week to one day or less**.
- Defined a campaign ticketing dashboard covering requests, delivery, and invoicing; secured C-level approval of the proposed solution.
- Coordinated product testing, issue resolution, and payment validation for the [app revamp](#) through its September 2026 release.

Product Manager – Traveloka

April 2024 - March 2026

- Led ticket-product development and redesigned refund fees and discounted pricing, generating **~IDR 10Bn in net revenue within 3 months of launch**.
- Increased **refund accuracy from 87.97% to 94.24%** through provider API integration and redesigned tax and commission calculations.
- Increased automated refund closure from **16.76% to 34.38%** through RPA, reducing manual handling.
- Raised refund policy completeness to **95.76%** through provider APIs; built an anomaly dashboard to flag policy errors and coordinate provider fixes.
- Improved an LLM-assisted workflow to parse and translate airline CAT 16 fare rules for refund policy interpretation.

Project Specialist – Boston Consulting Group

February 2023 – March 2024

Embedded with an EPC client across energy, metals, mining, and petrochemicals.

- Led **10+ techno-commercial tender proposals**, translating technical specifications into commercial narratives; **30% advanced to the final bid stage**.
- Analysed a **\$400Mn+ project pipeline** to prioritise operations and maintenance partnerships and shape the next fiscal year's business development roadmap.
- Supported team hiring, designed department-wide RFP/RFQ toolkits, and organised expert-led training.

INTERNSHIPS

Data Product Manager – Waresix

August 2022 – February 2023

Migrated 28 dashboards to Superset and introduced an NPS-based KPI framework.

Product Manager – Shipper

November 2021 - February 2022

Improved Transport Management System tooling and Blind Pick Up portal UX.

Business Intelligence – OVO

March 2021 – September 2021

Improved reporting SLA by 25%; standardised documentation and coordinated 30+ analytics requests.

Payment System Policy Analyst – Central Bank of Indonesia

September 2020 – January 2021

Researched PayLater and prepared Governor's Meeting briefings on payments, digital banking, and aid distribution.

LEADERSHIP

Head of Professional Development - MTI ITB (Keluarga Mahasiswa Teknik Industri ITB)

June 2022 – Jan 2023

- Led a **20-person division** with a ~IDR 40M budget to rank **1st of 15** in engagement; organised company visits for 200+ members.

President of Overall Management – ShARE ITB

June 2021 – June 2022

- Led **6 teams (50+ members)**; increased member satisfaction from **63.8% to 95.8%** and new registrations by **28% YoY**.

EDUCATION & AWARDS

Institut Teknologi Bandung (2019 - 2026) | Industrial Engineering | GPA: 3.27 | Full Merit Scholarship, Tanoto Foundation

- **3M Inspire Challenge 2021:** National Champion & ASEAN 2nd Runner-Up for an innovative bio-mask.
- **Schneider Go Green 2022:** Country Favorite Winner for a rural sustainable energy storage concept.
